Institutional Data

This function allows the selection of an unlimited number of variables for up to **fifteen** institutions or **ten** regions (not both). The report displays the requested information for a selected year.

To produce a report for multiple years use the [Graphs](#) option.

To make multiple selections, hold down the control key while clicking on your choices.

A field which is **BOLD** indicates that a note about this data is available. The note can be viewed by placing the cursor over the field.

A field which is *ITALICS* indicates that the data is an estimate.

Note: Some variables are not available for all years. The years in parentheses next to the variables and institutions indicate beginning and ending years (where applicable) in the data.
