

## May 2013 Forum

### E-learning

Across the academic landscape, we are witnessing enormous change in the delivery of higher education.

This forum will explore the changes in our universities with online learning and teaching and how libraries and librarians are working within this new environment.

#### Program

**1.25pm Welcome and Introduction from Chair of CRIG**

Mary Coghlan – University of Melbourne Library

**1.30-2.00 Quantum Learning (30 minutes)**

Professor Gilly Salmon – Pro Vice-Chancellor, Learning Transformations - Swinburne University of Technology

Our future learners will be born into an ever more technologically and infra-structurally enriched world, crossing the digital and wealth divides. The newer entrants will have known, experienced and become adept at using those technologies almost from birth, and will have unimaginable opportunities for true life-long learning. They will know less about any other older forms of information and knowledge and be less inclined to pursue antique ways of learning. They will be more mobile, connected, available and communicable. The notion of a learning experience that dominates and influences where you live will not be something that the Quantum Generation holds to be valid.

Professor Gilly Salmon takes us on a rapid journey to the preparations she's been making to receive the Quantum learners into the Higher Education of the Future.

**2.00-2.30 Leap into Learning (30 Minutes)**

Vicki Bourbous – Liaison Librarian, School of Education – Australian Catholic University

The presentation will encompass the following:

- Why e-learning for Information Literacy?
- The process – how were the modules created and what topics were covered;
- The online assessment quiz in LEO;
- Feedback to the program;
- Recommendations for future developments.

**2.30-3.00 Break (30 minutes)**

**3.00-3.30 Pushing boundaries: MOOCs at the University of Melbourne (30 minutes)**

Jan Weaver – Biosciences Librarian – University of Melbourne and  
Peta Humphreys – Science & Engineering Librarian – University of Melbourne  
Astrid Bovell – Copyright Communications Officer – University of Melbourne  
Seth Paddle – Liaison Librarian, Business and Economics – University of Melbourne

Peta, Jan, Astrid and Seth will describe their experience working in a partnership that is developing MOOCs at the University of Melbourne. Some topics that will be covered include:

- Copyright issues in an open learning environment
- Research support challenges in developing MOOCs
- The pedagogy of elearning

**3.30-3.45 The Carpe Diem Process (15 minutes)**

Jane O'Donnell – Liaison Librarian, Business Faculty – Swinburne University of Technology

Jane will talk about her experiences as the librarian in a carpe diem process. The example is the creation of an online unit for higher degree by research students "Research Writing Skills".

**3.45-4.00 Finish and wrap up (15 minutes)**

**4.00 Tour of the Australian Catholic University Library**
