Content Development: A Collaborative Process.

- Identifying content with unit chair input.
- Scaffolding the learning segments.
- Sharing, testing and adjusting.
Content Creation And Design.

- We wanted a combination of videos and interactive activity components complementing text aspects.

- A “Hook” to attract interest and draw engagement.
Activities, Videos And Images.

- H5P activities.

- The importance of accessibility.
Feedback And Impact.

- Feedback has been positive from our academic teaching staff.

- Student engagement.

- Success has now led us to further collaboration with academic teaching staff.
